CS351 - IT Workshop II (Cloud Computing)

Assignment 2

Due on 16th August, 2026

Submission Instructions: Please take screenshots, reduce the size of the images, and submit in Google Classroom

Part 1:

Create an **AWS** account and launch an ***EC2*** instance (*t3 micro*). You can use ***PuTTY*** to log in to the EC2 instance. You will also need ***scp*** to transfer files.

Part 2:

Create ***S3*** buckets in the **AWS management console**. In the buckets, create **2 folders** named as follows.

- website
- personal

You need to host a ***static website*** (your personal webpage) in AWS using an ***Amazon S3 bucket***. You are supposed to keep some files in a personal folder and restrict access to one of your friends only (from the class).
