CS351 - IT Workshop II (Cloud Computing)

Assignment 7

Total Marks: 25

Please follow the instructions below. Marks will be deducted if you do not follow these instructions.

(i) Screenshots: Take clear screenshots, resize the images to reduce their file size, and upload them to Google Classroom. Please do not upload a .zip file in Google Classroom.

(ii) Source Code Header: Include your name and roll number at the top of each source file using the following format.

Name: <Your Name>

Roll No: <Your Roll No>

(iii) Proper Comments: You need to write comments for each block of code, function inputs and outputs, and the working logic of the functions.

(iv) Proper Variable and Function Names: Please use meaningful variable and function names.

Create a web application (by using the pages you developed earlier) to host your personal website.

- You can take **static web pages**.
- The **development platform** can be any one of Java/Python/Node.js, etc.
- Write a Python program using boto to **deploy the application** using **AWS Elastic Beanstalk**.
